

Town of Sandisfield  
Town Employee COVID-19 Policy  
September 2023

The Town of Sandisfield COVID-19 Policy follows the CDC recommendations as of September 2023.

Regardless of vaccination, should you test positive for COVID-19, you must work from home or take sick time away from Town Hall or any other public building for at least five days. If you are experiencing symptoms and suspect you have COVID-19, but are awaiting results, you must work from home or take sick time away from Town Hall or any other public building until the results come in.

Isolation days are determined as follows:

**Asymptomatic:**

- Day 0 is the day you were tested (not the day you received your positive test result)
- Day 1 is the first full day following the day you were tested
- If you develop [symptoms](#) within 10 days of when you were tested, the clock restarts at day 0 on the day of symptom onset

**Symptomatic:**

- Day 0 of isolation is the day of symptom onset, regardless of when you tested positive
- Day 1 is the first full day after the day your [symptoms](#) started

After the mandatory five-day isolation, if your symptoms have not gotten better, you must continue isolation until you are fever-free and symptoms start to improve. If symptoms have improved, you may return to Town Hall and public buildings. However, a mask must be worn until all symptoms have resolved or through day 10, whichever comes later.
