Tree Removal

## Clear Lines, Reliable Power

Eversource has been in your area surveying trees along power lines to increase reliability of your electric service, and ensure safety for our employees and the community.

While working in the area, we have identified hazardous trees located near our lines that require pruning or removal. One or more of these types of trees have been identified on your property. **With your permission we would like to prune or remove these tree(s) at no cost to you.**

Property Address: \_\_\_\_\_

Tree(s) will be removed  Tree(s) will be pruned

Please complete the appropriate information below, and **place it back on your door knob** and we will collect it later.
