

YANNER PARK COMMITTEE

Town of Sandisfield

Minutes of Meeting of September 24, 2020

Motion to open meeting at 7:02 Adam, second Jessica

Present at meeting: Jessica, Paul, Adam, Sue, Emily and Kathy

Approval of minutes of August 13, Motion Adam, Second Jessica unanimously approved.

Someone spinning on vehicles in driveway at park. Adam talked to Mike Morrison about it and he will keep an eye on it.

Jeff Martin is the forester overseeing forestry at Clam Dam. The road that connects from dam to Yanner Park has a possibility to connect the two areas. He has money to put toward smoothing out this area. Perhaps trail from dam to Spectacle Pond would complete trail to go around lake.

Picnic Table/Eagle Scout project. Town is now using the table we purchased for park at town hall. Town purchased tables to replace and they are in town garage. Eagle Scouts may be able to do this project of concrete work to keep tables from walking away. Adam looked at project with a young man but has not heard back from him about this. We will be looking into the purchase of concrete and forms for table.

Motion to purchase materials (concrete and forms) to secure table. Motion by Susan second, Emily All in favor.

Pillar at front entrance was broken and logger has replaced. Sam Mercier talked to Adam and proposed we use two large granite stones on ends. Cost approximately \$500. Log buyer will pay for half of cost. Adam to talk to Sam and work to match the other side. Also asked to get estimate to point either side.

Discussion on debris left from cabin. Perhaps dumpster or buy debris.

Tree removal completed and job ok. Some of the field was mowed but only half. Mow once or twice per year. Not a weekly mow.

Motion to adjourn 7:45, Paul second, Jessica. All in favor unanimous.
